

# Elekta ONE® | OIS powered by MOSAIQ® for Systemic Therapies

# Simplify complex oncology care

**Oncology care is increasingly complex, involving different investigations, therapies and professionals across multiple departments. Every patient journey is different.**

Streamlined, coordinated and effective cancer patient care depends on informed teams, good communication and smooth workflows. Elekta ONE OIS powered by MOSAIQ is a powerful software solution that meets this need by becoming the beating heart of your oncology operations.

Established on a strong heritage of oncology informatics expertise, Elekta ONE OIS leads the field in oncology workflow and information management. It harnesses unprecedented levels of automation, integration and standardization to simplify the complexity of oncology care and to enhance overall efficiency, accuracy, consistency and performance throughout your organization.

Elekta ONE OIS gives multidisciplinary oncology care teams immediate access and insight into complete, real-time cancer patient information as they progress along their entire care journey. It helps to coordinate care, streamline workflows, and improve communication between colleagues—empowering you to provide truly integrated, patient-centered oncology care for all your patients.

## Elekta ONE OIS for systemic cancer therapy care

Elekta ONE OIS provides advanced systemic therapy information and workflow management to enhance patient care and safe medication ordering, including extensions to support pediatric dose calculation. Manage all aspects of care, from diagnosis and work-up, through treatment, to long-term follow up.

### Why Elekta ONE OIS for systemic cancer therapy care?

- Provide end-to-end patient visibility to the right staff at the right time
- Connect colleagues and synchronize care decisions
- Improve workflows and practice efficiencies to ensure high quality patient care
- Increase standardization and consistency across your organization
- Integrate the pharmacy workflow into multidisciplinary care
- Reduce dispensing time with convenient e-prescribing\*
- Access world-class customer support with oncology-specific expertise

\*support for e-prescribing is only available in certain markets.

**Define and coordinate complex cancer care pathways throughout the entire patient journey**

# Informed teams are empowered teams

Elekta ONE OIS is a complete patient information management system that centralizes oncology patient data into a single user interface, accessible by multidisciplinary teams across multiple locations. Empower every person on the care team by ensuring they have instant access to the complete, accurate, real-time information they need as they consult patients, complete tasks and make important clinical decisions. Help patients move fluidly around your facility, with their complete treatment information collated in one place.

## Timely and accurate patient charting

- Achieve seamless data integration throughout your organization
- Maintain a holistic view of patient care
- Enable instant, secure access to comprehensive, real-time patient data
- View treatment summaries and track patient progress easily
- Improve communication and coordination across teams to synchronize care decisions

## Effortless administration

- Centralize department scheduling for optimal efficiency
- Manage resources and coordinate care
- Achieve fast, accurate reimbursement with oncology-specific code capture
- Send comprehensive reports and required submissions with ease
- Experience connectivity with hospital information, diagnostic, billing and other third-party systems

# Work faster and smarter

## **Improve drug ordering efficiency and consistency with automatic dose calculations, dose management, and predefined regimens and rules.**

Elekta ONE OIS provides the intelligent automation you need to increase your productivity and streamline your clinical workflows, while supporting safe and consistent drug ordering for both adult and pediatric patients. It will help you work more efficiently so you can reduce delays and get valuable time back in your day.

### **Enhanced user efficiency**

- Access the critical data you need without leaving your desk
- Reduce user interactions and stay on task
- Accomplish more, in less time and fewer clicks
- Power through routine tasks intuitively
- Be aware of tasks to complete and incoming content to review

## **Safe, streamlined medication ordering**

- Avoid potential health complications with comprehensive care plans
- Access powerful dose and diluent calculations for adult and pediatric patients
- Increase accuracy by reducing the need for manual adjustments
- Increase ordering consistency and decrease effort to produce dispensable doses
- Improve alignment with total dose limits with cumulative dose management
- Easily and securely modify prescriptions based on patient condition

## **Smart customizable workspaces**

Ensure rapid, optimal uptake with easy to learn, easy to use software. Elekta ONE OIS allows you to create a personalized workspace to display the exact information and tools you need and to standardize care according to your center's unique protocols and processes.

# Impact your organization

Elekta ONE OIS is a rich resource of data that can be used to unlock insights to increase practice efficiency, financial performance and clinical quality.

## Leverage your data

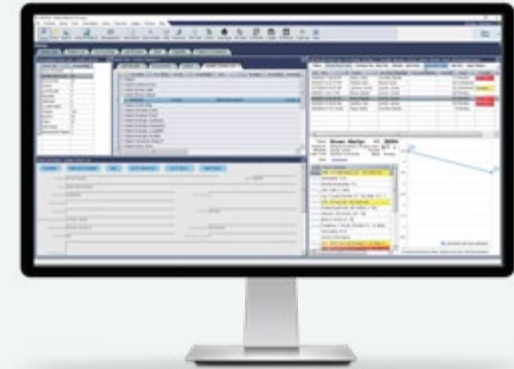

- Capture evidence-based medicine for more informed decision-making
- Harness robust data to achieve your clinical, financial and governance objectives

## Standardize care

- Improve communication and achieve coherent reporting across departments
- Configure workflows and templates to keep your organization aligned
- Increase adherence to department protocols

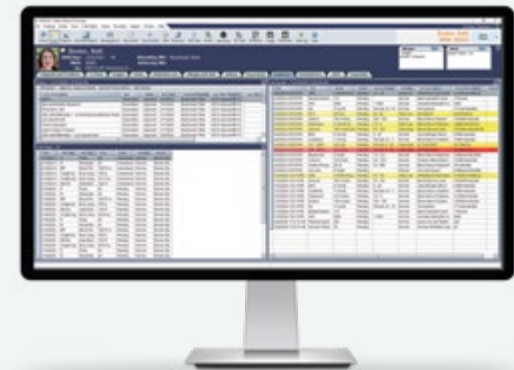

## Future-proof your practice

- Access the latest innovations easily
- Increase your capacity to grow
- Reduce reliance on paper and greatly increase departmental efficiency

### Home Page

View summary of daily tasks, such as scheduled activities, worklists, and information critical to your role—customized to each role in the cancer center.

### Patient Chart

Display detailed patient chart with customizable views—and full details are just a click away.

### Clinician Worksheet

Streamline practice efficiency and improve order accuracy with fast, single-screen processing of chemotherapy orders.

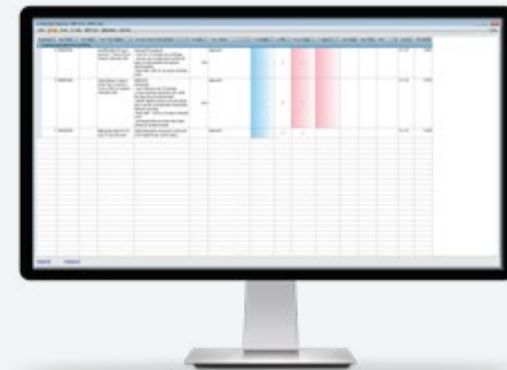

### Safety Features

Right patient, right procedure, right medication, right dose, right site and right time: highly visible patient safety features help ensure every patient receives the treatment prescribed.

### Diagnosis and Staging

Easily record diagnosis codes to facilitate chart documentation, treatment and reimbursement. Cancer staging is recorded from oncology specific, standards-based menus.

### Medication Administration

Quickly review, cosign and treat medication treatment orders for each patient.

# Elekta ONE

**Elekta ONE\* solutions provide a unified software experience designed to help you keep pace with fast changing technology—and do more for your patients.**

Embrace a seamless user experience

Free up time for what's important

Connect anytime, anywhere

Deliver quality care with ease

Learn from every patient

Enable unique patient journeys

\*Elekta ONE® is comprised of multiple Elekta solutions, some of which may not yet be available in all markets.

# Subscribe to Better with Elekta ONE®

## Systemic Therapies SaaS Packages

Equip your team with the technology they need. Our software subscription packages enable customers to secure new innovations and the latest functionality without having to invest significant capital up front.

	Paperless charting	Secure Elekta Axis Cloud hosting†	Mobile and tablet app	Patient engagement†	Operational data*	Patient data dashboards*	Smarter chart automation	Protocol-driven workflow tool	AI voice notation*	Easily manage complex planning data	Comprehensive registry platform	High-precision treatment planning	Particle and Unity planning
