

# **Elekta ONE® | Smart Workflows**

Level up oncology care

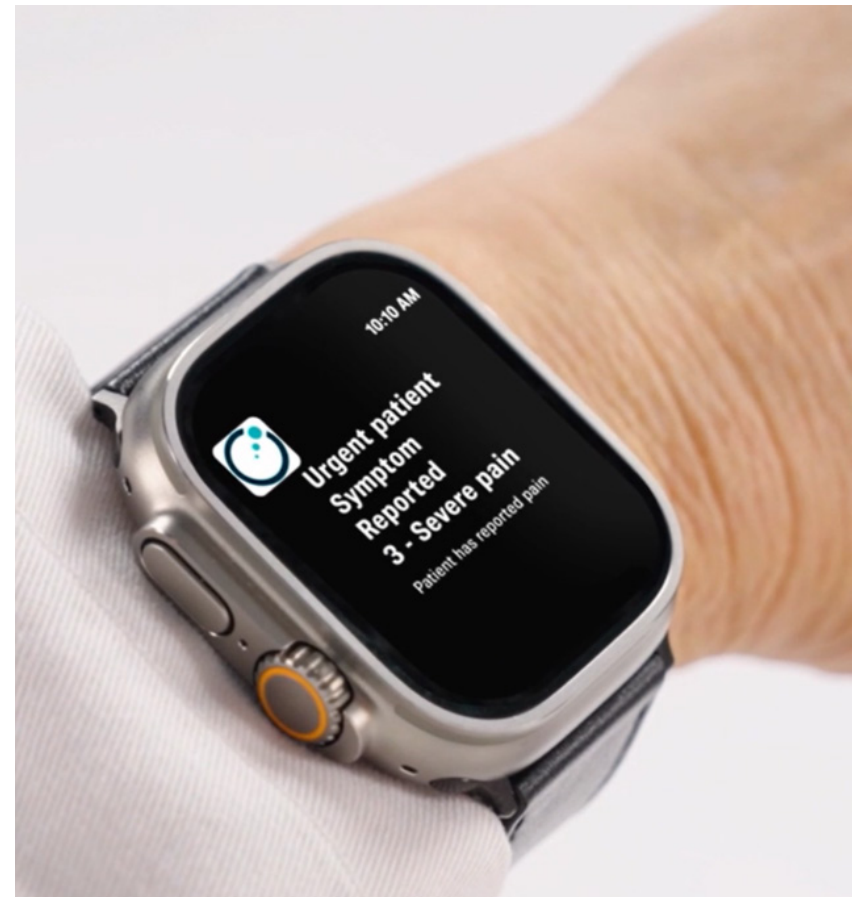

# Level up care with an intuitive, oncology-specific workflow management solution

Treating cancer is ever-changing and requires a comprehensive, intuitive way of working—modern workflow-driven approach—to activate a new level of personalized and coordinated care.

To simplify the complexity of oncology care and to drive overall efficiency, accuracy and performance throughout your department—and beyond—your care team requires exceptional automation, integration and standardization in a seamless workflow solution.

**Elekta ONE | Smart Workflows** is built on **Elekta ONE | OIS** powered by **MOSAIQ®**, the award-winning, powerful data management tool and a fixture in many of the world's leading oncology clinics, and connects your staff, patients, devices and systems via mobility and automation—aiding in every clinical outcome and patient experience.

**Smart Workflows levels up every step of personalized and coordinated cancer care**

## Make the patient care experience simpler and smarter

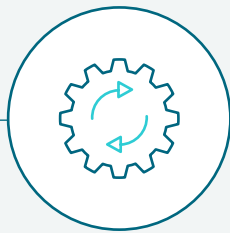

Compared to systems that are task-focused only, with extra steps and communication inconsistencies, Smart Workflows activates gains in efficiency, safeguards, and productivity; freeing up time and resources; reducing manual workload and time to onboard.

### With patient-focused workflow steps clearly identified

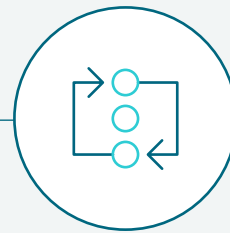

#### Expect:

On-the-go, on your device of choice

Customized, automated and protocol-driven workflows

A unified workspace to launch and connect with applications of choice

Accountability and safeguards

#### Expect reduction of:

- Manual workload
- Interruptions to communication
- Repetitive tasks
- Time to onboard
- Repetition due to redundant resource work

# Smart Workflows activates access, workflows and safeguards

## Activate access

Visualization of care information, on device of choice.

- **Modern portability:** with all care activities in a unified workspace, work on the go, on any device of your choice, for better productivity.
- **Documentation management:** simplified access to patient related documentation and true digital consent capture. Ease of approval ensures quick and easy progress through care path.
- **Focused clinical data:** pulls information from Elekta ONE® OIS and shows key patient treatment data in customized summary screen; automation in data capture and creation of new forms frees up time.

## Activate workflows

Workflow guidance in oncology.

- **Intuitive workflows:** efficiency through intuitive, workflow-driven activities, with comprehensive and granular views of the entire care process.
- **Protocol-driven:** workflow management with customizable protocols for each clinical pathway—including all activities, users & applications.
- **Truly collaborative:** streamline, share insights and rationale for patient-specific requirements or protocol deviations.

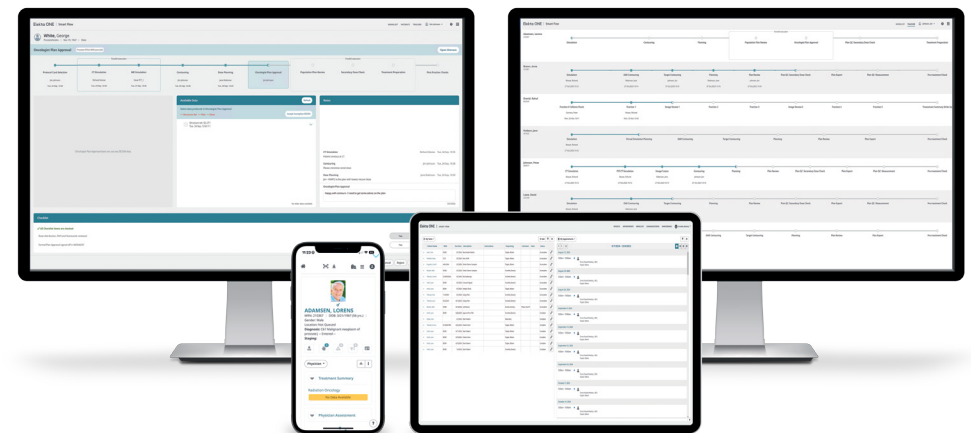

**With Smart Workflows, expect high-quality, coordinated care to drive continual improvement and confidence in cancer care—with a better staff and patient experience.**

### Activate safeguards

Consistency and accountability in every step of the workflow.

- **Risk reduction:** process tracking, automation and standardization of clinical workflows reduces the risk of inter-operator variability.
- **Enhanced security:** fewer authentications and passwords required, speeding up direct access to all applications – with security to keep data safe.
- **Operational excellence:** protocolization adds standardization and predictability for consistent performance & confidence in the treatment process.

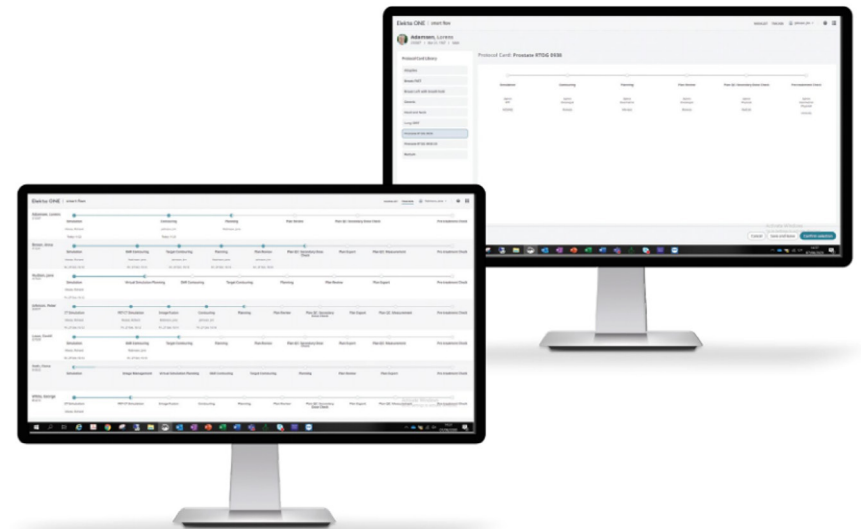

# Expectations met with Smart Workflows—equip your staff to work smarter

Deliver care that's activity-automated with customized, protocol-driven workflows, all in a unified workspace to launch and connect with applications of choice, as you need them.

**Each care team member knows what is due, and when—and what the outcome should be**

- Free up time, more 1:1 with patients and focus on best-use of resources
- View and act quickly on comprehensive data flow in a simplified interface
- Workflow steps and activities are clearly defined and automated
- Proactively supports “get it right the first time”
- Reliably ensures actions are carried out—in real-time for every patient

**Departmental visualization of the entire care process, where and when it suits you.**

View precisely which actions in each patient's care journey, from activities, plans and treatment processes, are required to reliably ensure secure and quick decisions and hand-offs – what is due, when its due and what the outcome should be – in real time for every patient.

---

**With built-in functionalities to ensure protection and accountability in every step of the workflow, Smart Workflows enhances outcomes, value and performance for high-quality care and a seamless user experience.**

---

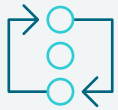

MOSAIQ® Oncology Information System (OIS) has earned the “Best in KLAS” designation in the 2024 Best in KLAS: Software and Services Report.

MOSAIQ ranked first in the Oncology (Radiation) category, based on feedback from thousands of providers.

# Elekta ONE

**Experience the familiarity and interoperability of a unified software environment throughout your entire oncology facility. Elekta ONE is designed to help you keep pace with fast changing technology—and do more for your patients.**

Embrace a seamless user experience

Free up time for what's important

Connect anytime, anywhere

Deliver quality care with ease

Learn from every patient

Enable unique patient journeys

\*Elekta ONE® is comprised of multiple Elekta solutions, some of which may not yet be available in all markets.

# Subscribe to Better with Elekta ONE

## Multidisciplinary SaaS Packages

Equip your team with the technology they need. Our software subscription packages enable customers to secure new innovations and the latest functionality without having to invest significant capital up front.

	Paperless charting	Secure Elekta Axis Cloud hosting†	Mobile and tablet app	Patient engagement†	Operational data*	Patient data dashboards*	Smarter chart automation	Protocol-driven workflow tool	AI voice notation*	Easily manage complex planning data	Comprehensive registry platform	High-precision treatment planning	Particle and Unity planning

## Next generation interoperability

Elekta ONE OIS is an open system that connects to the hospital enterprise via industry standard interfaces.

Elekta is also excited to continue innovation in interoperability by adding FHIR to its existing framework. Elekta's FHIR Framework will allow third-party developers to build clinician and patient-facing applications using Fast Healthcare Interoperability Resources (FHIR).

## Elekta ONE® Professional Services

Benefit from our rich implementation experience and software expertise throughout every step of your journey with us.

- Fast, smooth transition
- Optimal software performance
- Workflow efficiencies
- Lower operational costs
- Rapid return on investment

### **Migration to cloud-based software**

Key to reducing carbon emissions for software solutions

## Elekta Axis Cloud security

- Multilayer threat protection
- Automated security detection
- Built-in system compliance
- Optimal software performance
- Operational continuity
- Effective budgeting

## We contribute to a sustainable future

Elekta is committed to building a sustainable future globally while realizing a vision of a world where everyone has access to the best cancer care.

Learn more about our sustainability work and how we support the UN Sustainable Development Goals at [elekta.com](https://elekta.com).

**Hope** for everyone  
dealing with cancer.
